ADDITIONS TO THE SURVEY OF RENAISSANCE BIOLOGICAL BOOKS

We regret the omission in our list (R&R, III, 3) of an important item: Henry Power, Experimental Philosophy, 1664 (at UTL). Both UTL and FDH have since acquired the recent New York photographic reprint of Topsell's History of Four-footed Beasts and History of Serpents with Thomas Mouffet's Theater of Insects from the 1658 edition. The Centre for Reformation and Renaissance Studies has just acquired a complete set of Ulisse Aldrovandi's encyclopaedic works on zoology.
